DETAILED ACTION

Response to Amendment

1. Applicant's response filed September 28th 2006 has been entered and made of record.
2. Applicant has amended claims 1, 2, 20, 21 and 27. Claims 31, 33, 35 and 36 have been cancelled. New claims 37 and 38 have been added. Claims 1-30, 32, 34, 37 and 38 are now pending.
3. Applicant's remarks have been entered and are found persuasive in view of the newly presented amendments and in view of the in person interview conducted September 27th 2006.

Applicant has amended independent claims 1 and 27 to clarify the configuration and operation of the present invention. The previously cited prior art does not teach or fairly suggest the apparatus now recited in the claims. Reasons for allowance are given below.

Allowable Subject Matter

4. Claims 1-30, 32, 34, 37 and 38 are allowed.

The following is an examiner's statement of reasons for allowance:

With regard to independent claims 1 and 27, none of the previously cited prior art references of Maase, Lafreniere, Hakenworth, Maase II or Asano teach or fairly suggest a scanning optical system that is a substantially conical prism with top and bottom

portions that are configured to receive a users hand as is now recited in the claims. The presented amendments distinguish the present invention from the prior art of record. Therefore independent claims 1 and 27 and all corresponding subsequent dependent claims are found to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
